

Here at Heartland, we create inspirational, beautiful, and useful products for the home and family. Each piece is the result of thoughtful design and many are manufactured in our facility in rural northern Indiana.

We endeavor to bring unique and carefully-crafted additions to the home, with a focus on American-made products. This enables us to provide more opportunities for local employment, including jobs for individuals with disabilities. All of it—creating jobs, creating opportunity, and creating beauty for the home stems from our desire to honor and glorify our Creator.

We hope this desire is reflected in our products, and that they will touch the hearts and inspire the souls of all who use them.

EXPECT IMPERFECTIONS.....

These primitive signs are created from white pine that grows in forests. They are "knot" going to be perfect. Yes, you can expect some knots, some discoloration in the lettering (this is from pine sap in the wood) and many other natural characteristics. If you want signs that are perfectly uniform, consider our engraved signs, located in the following section.
